Perfectly visible

Even in dark conditions.

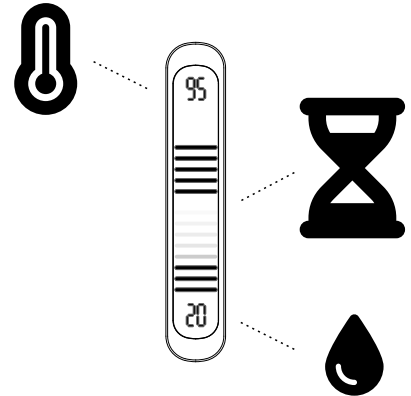

Everything at a glance

In addition to the countdown, you always have an eye on the climate in the cabin thanks to the integrated temperature and humidity sensor. Flip shows what you really need.

Intuitive operation

You don't have to explain how to use an analog hourglass. This also applies to our digital one.

Simple. More.

- High accuracy
- No sticking of the sand
- Clearly visible
- Easy installation
- Reset countdown at any time
- Configurable
